Danny Way's Adult Size board was drawn by Francesco Jekill Albertini and was Danny's third or fourth graphic with H-Street. (Danny decided to draw his own graphic somewhere in this same time frame, The Question Mark).

At the time, we thought Danny should have a larger board at the time, since the Giant and The Rabbit in the Hat were quite small, even for that time. Given that Danny was Pro at a really young age, this was understandable.

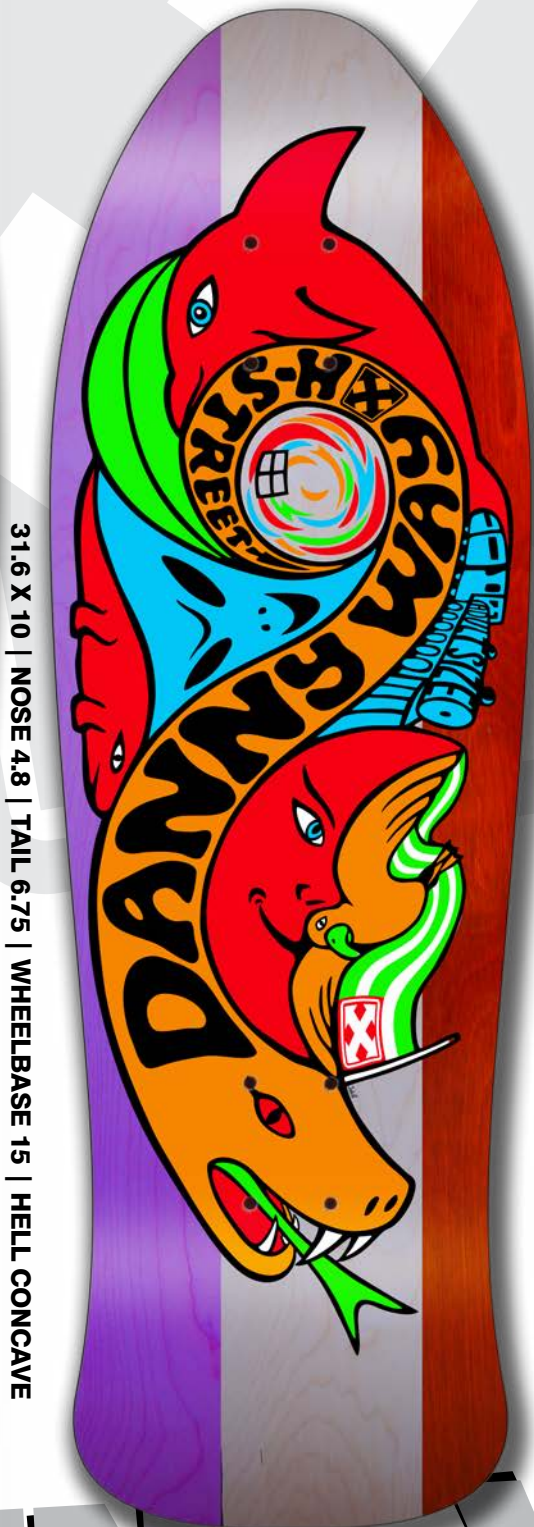

We are now re-issuing this classic design on the original shape with the old school hole pattern on the Hell Concave, as well as on an updated rider shape with the standard hole pattern on the Supreme Concave.

The rider edition is perfect for all modern Park&Pool riding, all-around cruising and vert ramps.

Each edition comes in several colors ways and finishes.

33.5 X 9.5 | NOSE 6.5 | TAIL 7 | WHEELBASE 15.75 | SUPREME CONCAVE

31.6 X 10 | NOSE 4.8 | TAIL 6.75 | WHEELBASE 15 | HELL CONCAVE
